Provider Profile

State of Connecticut

Department of Developmental Services
460 Capital Avenue, Hartford, CT 06106

Information provided by the provider describing their agency:

ACES, a leader and innovator in education, is to empower our students, member districts, and other clients to meet educational and life challenges in the changing global environment by providing collaborative, customized, cost effective solutions to meet identified needs of our educational community

As an extension of ACES commitment to serving the needs of students with special needs, ACES ACCESS supports the career development and transition for a multi-challenged population in the Greater New Haven County. Hand in hand with special education and rehabilitative services, ACES ACCESS provides youths and adults with disabilities with skills to successfully attain and sustain quality employment. ACCESS has access to the vast array of services and opportunities available through its parent organization including research based best practices in the delivery of services to its clients.

ACCESS clients play an integral role in driving the service delivery system to continually update and improve services. They participate on committees; and assist in the interview process, and orientation of new hires.

Individualized Support: assisting the individual with securing and maintaining competitive employment in the community. Follow-up support is determined by the individual's level of need. ACCESS provides a forum for competitively employed individuals to interact with peers from other walks of life.

Group Support: individual works in a group setting with other program clients and company employees. Opportunities for supervision as well as natural supports are available at the jobsite.

Comprehensive Situational Assessments: conducted at community employment sites to determine the individual's work abilities, interests, and stamina. The assessment identifies the level of support needed for the individual to be successful. This service facilitates job placement and appropriate career development.
